# Seed drill PNEUSEJ MV

The pneumatic seed drill MV is an ideal machine for medium and large farms looking for a cost-effective way to seed with high accuracy in conventional tillage practice. Seed drill Pneusej MV is produced in working width 5 m – 6 m – 8 m with foldable frame for 3 m transport width, and can be connected with three-point hitch with a tractor or with a machine for soil preparation. A big advantage is use of large tires with dimension 31x15,5-15”.

Seed drill is equipped with two dosing units Accord with centrally adjustable seeding rate.

Type	MV 500	MV 600	MV 800
Working width (m)	5	6	8
No. of rows/ row width (cm)*	36/13,8	40/15	56/14
	40/12,5	48/12,5	64/12,5
Hopper capacity (l)	2000	2000	2000
Min. weight without seed (kg) from*	2020	2110	2520
Power requirement (HP)	160	160	180
Recommended speed (km/h)		5-12
